PRODUCT UPDATE

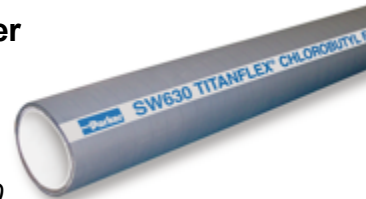

Large Bore Hose

Assemblies and Cut Lengths

Parker industrial hose distributors periodically require cut lengths or assemblies of large bore hose products they might not normally stock or lack the expertise to assemble. To address such circumstances, Parker offers the following options:

Factory Assemblies and/or Cut Lengths Quoted by Parker

- Chemical HoseSeries SW373, SW574
- Concrete Hose.....Series SS201, SS123
- Dock HoseSeries SW339, SW356
- Food & Beverage HoseSeries SS200, SW630, SW640
- Military Spec Hose

NOTE: Quoted hose/couplings might not be stocked and are subject to minimum order quantities and lead times.

Factory Assemblies Quoted by Parker

- Aircraft Fueling Hose (available in bulk or cut lengths only to Select Fabricators)
- Composite Hose (available in bulk or cut lengths only to Select Fabricators)

NOTE: Quoted hose/couplings might not be stocked and are subject to minimum order quantities and lead times.

These types of hose assemblies are also available from distributors classified as *Select Hose Assembly Fabricators* for the respective products. Contact Parker for referrals.

Large Bore Hose *Assemblies and Cut Lengths*

(Continued from page 1)

Cut Lengths Quoted by Parker

Select large bore hoses (formerly Titan hoses manufactured in South Gate, California, only) in total footage multiples of full manufactured lengths, subject to minimum order quantities and lead times. For example:

- Full manufactured length = 100 feet
- Request for quote for 4 each x 25 foot lengths

NOTE: Quoted hoses might not be stocked and are subject to minimum order quantities and lead times. Contact Parker to identify South Gate hose products.

Parker does not quote factory assemblies or cut lengths of other large bore hose products. However, Parker *Circle of Safety* distributors are especially oriented to industrial hose markets and specialty applications. These focused distributors can respond rapidly and efficiently to cut-length and assembly opportunities because they typically maintain a large and comprehensive inventory of bulk hose and couplings and have the necessary assembly fabrication equipment and expertise.

Circle of Safety distributors are a valuable resource for any Parker distributor requiring less than standard lengths or fabricated hose assemblies. Two designated COS distributors are:

Goodyear Rubber Products
St. Petersburg, FL 33712
800.367.4673

www.goodyearrubberproducts.com

Progressive Hydraulics, Inc.
Saddle Brook, NJ 07663
201.791.3400

www.phionline.com

To find the other *Circle of Safety* distributors, contact your local Parker Industrial Hose Specialist or visit www.safehose.com and click on the "How to Order/Where to Buy" link. (Access the link using the QR code below, at right.)
