## PRODUCT UPDATE

### Series 7219 E-Z Form™ MP Hose

### Series 7395 E-Z Form™ GS Hose

#### *Part Number, Packaging and Stock Status Update*

Parker recently introduced Series 7219 E-Z Form hose with a higher grade tube compound and higher temperature rating—in popular 1/2", 5/8", 3/4" and 1" IDs—made in the USA.

Parker now offers both Series 7219 and 7395 in those same sizes in nominal 300-foot reels under new part numbers, superseding the previous 130-foot coils and those respective part numbers. Additionally, selected popular part numbers have moved from a non-stock to stocked status. Due to lack of movement, other selected part numbers have been discontinued. All discontinued items are available only until current inventory is depleted.

Please see the table on page 2 for product status details.

If there are any questions please contact
