Appetizer. Main Course. Dessert. Nightcap. No Matter What is on the Menu...

Parker Provides a Complete Package of Industrial Hose to Satisfy Food & Beverage Processing, Transportation and Delivery Appetites

Whether in-plant movement of blending agents and preservatives, tank-to-tank transfer of beer and wine, bottling or packaging operations, over-the-road-transport of grain and milk or beverage dispensers at restaurants, Parker industrial hose provides a wide array of versatile products to provide sanitary, robust and reliable service.

Where to Sell

High volume users of industrial hose & tubing include:

- Bars, restaurants & taverns
- Bottling plants
- Breweries & wineries
- Co-operatives, farms, granaries & vineyards
- Dairies
- Laboratories
- Packaging operations
- Processing plants
- Transportation companies

Typical Hose & Tubing Applications

- **Delivery, tank-to-tank & transport**
 - Heavy duty rubber suction and/or discharge hose for multiple media:
 - Beverages & potable water
 - Dry abrasives
 - Dry non-oily foods
 - Fatty/oil foods
 - Light duty, lightweight PVC suction and/or discharge hose
 - Dry abrasives
 - Potable water
- High temperature hose to connect an air compressor to the cargo bay of a bulk dry abrasives transport truck

■ Dispensing

- Low pressure clear PVC tubing for beer, juice, soda and potable water

■ In-plant

- Air hose for cleaning, drying and mixing processes
- Low and high pressure water hose for clean-up/washdown
- Recovery of recyclables

■ Laboratories

- Clear or color-coded PVC or PVC/rubber blended hose and tubing for analytical and testing equipment
